## Kids Deserve the Best!

When we first heard the tragic story of the origins of Luke's Place, we were deeply saddened. Luke was a young boy who was murdered by his abusive father in spite of his mother's pleas to prevent the father from having unsupervised access to Luke. However, from this personal tragedy comes a story of hope for victims of abuse. Luke's Place is a complete resource centre for women trying to flee abuse and protect their children.

They are now building a Children's Centre where kids can play while the mother's use their services. With limited funding for such a project they approached the BDAF.

It was our privilege and honour to help such an important organization out. The BDAF donated hundreds of dollars of new toys to them. The toys were carefully selected for all age groups and for both boys and girls.

Adam Wiseman, Executive Director of the BDAF, presents Tanya from Luke's Place with the toys to fill their new Children's Centre and a \$150.00 Gift Card for Walmart.

We hope these toys can bring a few extra moments of joy and delight to some kids facing seemingly impossible challenges. Our deepest thanks go out to the staff at Luke's Place for allowing us to be a small part of the terrific work they are doing!

A pile of new, name-brand toys waiting to go to Luke's Place!
